FORGING THE FUTURE ONE HERO AT A TIME

DC NATION INTERVIEW

XOLO MARIDUEÑA

JAIME REYES IN

Blue Beetle

What can you share about the origin story of Jaime Reyes—and his alter ego, Blue Beetle?

Jaime is someone who's coming back to his hometown from college. One day he comes across this scarab that grants him powers beyond belief. At first, he's reluctant to become a hero, but ultimately he'll decide to accept his fate—whether he feels worthy or not!

Like most comic book films, there are tons of origin stories to pull from. I think our movie amalgamates some of Jaime's best stories in comics over the years.

How does this scarab give Jaime his powers?

The scarab, Khaji Da, is a sentient alien life-form on a mission across the universe to detect technological advancements. The scarab just so happens to attach itself to Jaime and he's granted incredible powers.

The powers are more a question of what *can't* he do? He can fly, punch things super hard, make his hands turn into different weapons. He's kind of just the best superhero out there...if I do say so myself.

Who is the villain of the movie, Victoria Kord?

Victoria Kord is played by Susan Sarandon in the film. Victoria is truly a billionaire mogul with her eyes on the prize. However, she has a bit of a chip on her shoulder because there was a disagreement on who should head up Kord Industries. Susan Sarandon is such an amazing actress and as much as Victoria Kord has a bad side, she's also very charming.

What makes this superhero film unique?

This film really is gonna tap into that familiar family feeling that is irreplaceable. You're gonna meet Jaime's family and say, maybe I don't look like them, maybe I don't sound like them, maybe our parents don't come from the same place, but I know this type of love and what this relationship feels like. I hope it will make a lot of people realize you don't have to do everything alone.

All the moments that led up to Jaime encountering the scarab were because of the foundation that his family was able to build on.
